**I think that Eaves could improve further if;**

N/A

Nothing!

Nothing springs to mind.

No improvements needed!

More notice for events that parents can attend so time off work can be arranged.

Go out of school for more whole class field trips.

We don't think there is much to improve on.

Timing for events

Posting more on seesaw

Eaves should have a resource based provision for ASD children.

Updates on child's progress at a shorter interval.

Communication of events earlier for parents.

More information when homework is issued

More parent involvement, inviting into school more eg learn in class

Communication between staff and parents and consistency with responses to concerns.

Being able to message the teacher first.

Longer lunch time as my child feels rushed to eat.

If children have any issues with other children they are listened to or counselled on how to deal with them.

They perhaps considered giving children less homework. I do wonder if the volume is correct for those so young.

N/A Doing a great job!

Reduce the amount of homework they receive (however mum disagrees with me!)

They could communicate more with parents.

In my opinion, nothing.

No improvements known.

Extended breakfast clubs and after school clubs (earlier and later than current clubs)

None that I can think of.
